

## **Seminar leading to the authorized application of COBIMAX®**

COBIMAX is a gift of nature which every human being is born with. Every human being has the ability to heal his body by the power of thoughts right from the moment of his birth.

People encounter completely different kinds of experiences already very early in life. Since human beings are conditioned to rate each experience emotionally, these emotional ratings stored in our brain in the course of growing up are exactly the ones that cuts us off from the ability to heal ourselves.

COBIMAX reactivates our holistic collective consciousness: this higher level of awareness located in every human being's cerebellum is the actual HEALER that is activated by all "Cobimaximizing" processes.

The COBIMAX seminar enables each participant permanent access to dynamic intelligence. The higher level of awareness that is reached enables the direct influence on the autonomic nervous system, the organ and cell control system of every human being.

Thought processes are constructively optimized as well.

After completion of the seminar, Cobimax opens up possibilities for the participants which simplify a focused further development of their own personality, their health and their autonomy. Of course this can also be achieved by the Cobimax applicant for other persons.

The successful completion endows every participant with extreme efficiency by making parts of the brain deliberately available to which human beings had never had access up to now. It connects the practitioner with limitless inner knowledge and with the collective human consciousness.

### **Three-day-seminar**

**First day: module 1 from 9 am to 6 pm**

Theoretical background and Cobimax system structure:

Time structure and time manipulation

Cell structure and its energetic designs

Cell oscillation is everything and comes out of nowhere

Deliberate access to cerebellum consciousness

Cobimax effects and reactions

Menu guide: expressing objective, purpose and definition of the Cobimax topics for an application

First application of the Cobimax system and analysis of one's own body

**Second day: module 2 from 9 am to 6 pm**

Connections between emotions, cell receptors, cell genetics and cell health with direct practical

application and checking of one's own body

Communication and anatomy of bacteria from the Cobimax perspective

Specific and unspecific immune systems have their own significant weaknesses

The micro tubular immune system as unerring health protection system

**Third day module 3 from 9 am to 4 pm**

Unusual methods

The thyroid gland fires on the basis of X-rays

Variety of assisting tools for optimum results

Knowledge is available anywhere

Application on people, animals and plants

**Completion of module 1 - 3**

Activating and certification of the Dynamic Intelligence for authorized counselling of family members, relatives, acquaintances, clients, patients

**All prices are subject to statutory VAT.**

**Modules 1 - 3**

**(3-day seminar)**

**7950,- €**
